

Webinar on Rooftop Solar for C&I Consumers in Tamil Nadu by SICCI & AVC (Auroville Consulting)

Date & Time: Friday 17th September 2021 4 to 5.30 PM

Context

Tamil Nadu has already emerged as a leader in renewable energy through its high wind power capacity. It has also the potential to lead the rooftop solar sector by achieving its target of 3,600 MW by 2023. As of March 2021, the installed capacity of rooftop solar capacity in the state is 325 MW this represents only 9% of the state's target.

A stable policy environment, fair feed-in tariffs, a hassle-free interconnection process and access to affordable credit lines have been identified as means to propel the rooftop sector in the state.

Objective

The objective of this webinar is to create an awareness and clear any doubts regarding rooftop solar for C&I consumers in Tamil Nadu.

Focus area

This webinar will address some of the current challenges regarding the legal framework, presents case studies on the financial viability for commercial and industrial consumers and introduced the participants to available credit lines for rooftop solar.

Key takeaways

- Understanding of the current solar policy and regulations for C&I consumers in Tamil Nadu
- Introduction to SBI credit lines for rooftop solar
- Opportunity for a pro bono rooftop solar assessment for willing participants

Agenda

- Opening the session by **Mr. Vinod Solomon**, secretary, SICCI
- Welcome note by **Mr. K. Shankar**, Member, Executive Committee Member, SICCI,
- Tamil Nadu Solar Energy Policy by **Mr. Martin Scherfler**, Co-founder, Auroville Consulting
